

# Guide to downloading MARC records

---

**Base URL:**

lynda.com/courselist?marc=true

**To specify language libraries:**

Append the string "&library=XXX"

*Example for the German Library:*

lynda.com/courselist?marc=true&library=de

Language library parameters:

en (English)

fr (French)

de (German)

es (Spanish)

**To specify the format for MARC records:**

Append the string "&format=XXX"

*Example for xml format:*

lynda.com/courselist?marc=true&format=xml

Format parameters:

xml

marc

**To specify your organization keyword (if you have a login portal):**

Append the string "&organization=XXX"

*Example using the lynda.com organization keyword:*

lynda.com/courselist?marc=true&organization=lynda.com

**To get all courses since a specific date:**

Append the string "&contentStartDate=YYYY-MM-DD"

*Example pulling all courses since October 10<sup>th</sup>, 2016:*

lynda.com/courselist?marc=true&contentStartDate=2016-10-10

**Putting them all together:**

*Example for all German language library courses since October 10, 2016 with xml format and organization = lynda.com:*

lynda.com/courselist?marc=true&library=de&contentStartDate=2016-10-10&format=xml&organization=lynda.com
